Professional Summary

Graduate in computer science and engineering with hands-on experience in backend development, machine learning, and data-driven applications. **Proficient in Java**, Spring Boot, Python, and SQL . Developed microservices-based systems, machine learning solutions, and automation pipelines. Looking for Software Engineer or Data Science opportunities to build scalable and intelligent applications.

Education

Shri Guru Gobind Singhji Institute of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering

Dec 2021 – May 2025

Nanded, Maharashtra

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Machine Learning

Experience

Software Intern (SEO & Automation)

Coneio

Nov 2025 – Apr 2026

Hyderabad, Telangana

- Developed **Python-based web scraping** and **ETL pipelines** that extracted and processed information from **6,000+ web pages** for SEO analysis and reporting.
- Performed **8 strategy SEO procedure** to efficiently rank the site on top in searches.

Projects

Hospital Management System | *Java, Spring Boot, Apache Kafka, Docker, Maven*

Nov 2025

- Built a **Spring Boot microservices**-based hospital management platform with a unified **API Gateway**.
- **Containerized** services using **Docker** and managed persistent data using **Docker volumes**.
- Implemented **Apache Kafka** for **asynchronous communication** between appointment, billing, and patient services.

Malware Detection Solution | *Python, Scikit-learn, JavaScript, HTML, CSS*

Jan 2026

- Developed a machine learning system for malware detection achieving **94% classification accuracy**.
- Performed **preprocessing** and **feature engineering** on **.exe** datasets to improve prediction quality.
- Built a **phishing URL detection** module and an interactive **web interface** for analysis.

Skills

Languages: Java, Python, C, JavaScript, SQL

Frameworks & Libraries: Spring Boot, Laravel, Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Tools & Technologies: Git, GitHub, Docker, Kafka, REST APIs, Linux, VS Code, IntelliJ IDEA, Jupyter Notebook, Google Colab

Cloud: AWS (EC2, S3), Google Cloud Platform

AI/ML: Machine Learning, NLP, Feature Engineering, Generative AI, RAG

AI Tools: Ollama, Claude Code, Codex, GitHub Copilot, firebase,

Achievements

- Oracle Cloud Infrastructure 2025 Generative AI Professional Certified.
- Strong foundation in Data Structures, Algorithms, System Design, and AI applications.
- Machine Learning I Columbia University (edX)
