AMAN ANSARI

Java Full Stack Developer | Hyderabad, India
iamamanansari786a@gmail.com | +91 8149404438 | linkedin.com/in/-aman-ansari | github.com/ansariamann | leetcode.com/teatoast

PROFESSIONAL SUMMARY

Entry-level Java Full Stack Developer (B.Tech CSE, 2025) with hands-on experience building REST APIs, microservices and full-stack applications using Java, Spring Boot, Spring Security, Hibernate/JPA, Apache Kafka, PostgreSQL, React and Docker. Built a multi-tenant HR outsourcing platform with role-based access control and a Kafka-based microservices Hospital Management System. Oracle Cloud Infrastructure Certified Developer Professional; GATE 2026 qualified; 430+ LeetCode problems solved.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C
Backend & Concepts: Spring Framework, REST APIs, Microservices, Apache Kafka, JWT, OOP, DSA, System Design, Event-Driven Architecture
Frontend: React, Vite, HTML5, CSS
Databases: PostgreSQL , Oracle 21c, MongoDB, SQLite, Redis, Firebase
Cloud & DevOps: Docker , Nginx , Apache Server , AWS (EC2, S3, VPC) , Cloudflare Workers , Git , GitHub , Maven , Linux

PROJECTS

Multi-Tenant HR Outsourcing Platform | GitHub Link — Oct 2026
Java 21, Spring Boot 3, Spring Security, React 18, PostgreSQL 15, Redis, Docker, Nginx, SSE

- Built a full-stack HR outsourcing and recruitment platform with separate portals for agency recruiters and client companies, tenant-scoped REST APIs and database-backed JWT authentication.
- Enforced role-based access control with Spring Security @PreAuthorize role-hierarchy checks and tenant-scoped data access to guard against IDOR and privilege escalation.
- Implemented background processing for bulk resume uploads using PostgreSQL and Redis, with fuzzy-matching scoring to flag duplicate candidate submissions.
- Used Server-Sent Events (SSE) to stream live candidate interview and offer status updates to client dashboards.
- Containerized backend, database and React/Nginx services with Docker Compose and configured Content Security Policy (CSP) headers.

Telegram Cloud Drive (Vault) | GitHub Link — Oct 2026
Java 17, Spring Boot 3, React, Vite, PostgreSQL (Supabase), Telegram Bot API, Docker

- Built a web-based personal cloud drive with Spring Boot and React, using the Telegram Bot API for file storage and PostgreSQL (Supabase) for folder hierarchy, file metadata and search.
- Worked around Telegram's 50 MB bot upload limit with a multi-part pipeline that splits files into chunks of up to 45 MB and tracks part order for reassembly.
- Implemented HTTP 206 Partial Content (Range requests) to stream video and audio in the browser without loading entire files into server memory.
- Added passcode-based session authentication with HMAC-SHA256 signed cookies and on-demand folder ZIP downloads; containerized frontend and backend with Docker Compose.

Hospital Management System | GitHub Link — Nov 2025
Java 17, Spring Boot, Spring Cloud, Apache Kafka, Hibernate/JPA, MySQL, Docker, Maven

- Designed a microservices healthcare system (Appointments, Patient Records, Billing, Notifications) behind a Spring Cloud API Gateway for centralized routing and token validation.
- Used Apache Kafka topics for asynchronous appointment and billing events between services, keeping them loosely coupled.
- Implemented Spring Security role-based access control to restrict patient data by role; tuned Hibernate/JPA queries with indexed joins and connection pooling.
- Containerized services with Docker and persistent volumes for a consistent local setup.

EXPERIENCE

Software Intern, SEO & Automation | Coneio | Hyderabad, Telangana — Nov 2025 – Mar 2026

- Built Python ETL pipelines to process 6,000+ web pages, automating reporting and cutting manual data entry by about 40%.
- Applied keyword research and on-page SEO optimization to client websites, improving search visibility by about 25%.

EDUCATION

Shri Guru Gobind Singhji Institute of Engineering and Technology | Nanded, Maharashtra — Dec 2021 – May 2025
Bachelors of Technology , Computer Science & Engineering

Dayanand Science College | High School | Latur, Maharashtra | 94.5% — 2019 – 2021

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Certified Developer Professional
- Machine Learning, Columbia University (edX) | Career Essentials in Generative AI, Microsoft and LinkedIn
